

OpenTAS

Terminal Management auf Basis jahrzettelanger Erfahrung

OpenTAS ist das digitale Herz jedes modernen Terminals. Es bietet allen Arten von Tanklagern einen umfassenden Überblick über ihre Bestände und Bewegungen. Alle Messdaten, Buchungen und Bestände sind zentral im System verfügbar. Basierend auf diesen Daten können die Mitarbeiter Ihres Tanklagers ihre operative Exzellenz auf ein neues Niveau bringen. Gleichzeitig ermöglichen umfassende Reporting-Funktionen dem Managementteam, aussagekräftige Entscheidungen zu treffen.

Erhältlich in 3 Varianten

OpenTAS ist für **alle Arten von Terminals** konzipiert. Es ist als On-Premise- oder Cloud-Lösung verfügbar, die auf Lizenz- oder Abonnementbasis angeboten wird. Alle OpenTAS-Varianten sind von Implico mit der **Supply Chain United** verknüpft. Dies ermöglicht Ihnen, zukünftige Lösungen in das System zu integrieren - auch jene von externen Partnern.
